

## Rochester VHF Group (RVHFG) January 3, 2026 Meeting

### When:

Saturday January 3, 2026

10:30am - Noon

### Where:

Irondequoit Public Library

Room #113

[1290 Titus Ave, Rochester, NY 14617](https://www.google.com/maps/place/1290+Titus+Ave,+Rochester,+NY+14617)

### Agenda:

- An in-depth look at the W6PQL 4-event sequencer
- "Tools of the trade" discussion and demonstration (See below)
- SG-Labs transverter connection display
- Share your January VHF contest plans.

All attendees are encouraged to bring workshop tools, equipment, or supplies that you think might be of interest to others. We are not talking about \$100,000 analyzers, but the typical tools of the trade for VHF+ frequencies. We will talk briefly about how this equipment is helpful in the hobby and give members a chance to check out what others have brought. Rus Healy, K2UA, will be providing a demonstration and there will be time for others to do the same.

You do not have to be a member of RVHFG to attend. All are welcome.
